Summary

I am a Frontend Developer and Web Design Expert with a BSc in Statistics from Nnamdi Azikiwe University. I have a passion for creating captivating online experiences that leave a lasting impression and drive user engagement.

As a Frontend Developer at App To Match, I use my proficiency in HTML, CSS, JavaScript, And Wordpress to design and develop the front-end components of the company's web applications, ensuring a seamless and intuitive user experience. I also collaborate with cross-functional teams to deliver integrated marketing campaigns and website projects, leveraging my effective communication and coordination skills.

Previously, I worked as a Social Media Manager at App To Match, where I played a crucial role in developing and executing the company's social media strategy. I crafted engaging content and curated compelling campaigns across various platforms, enhancing brand visibility and fostering meaningful connections with the target audience. I also continuously analyzed performance metrics and user feedback to optimize social media strategies, delivering measurable results and exceeding business goals.

I am a firm believer in data-driven decision-making, innovation, and creativity. I love exploring new design trends, social media tools, and emerging technologies to stay ahead of the curve and bring fresh ideas and dynamic solutions to every project. I am always eager to learn new skills and challenge myself to grow as a professional.
